Simply connect any MirrorLink-enabled smartphone to any MirrorLink-enabled car to get easier and more responsible access to navigation, music and phone apps while driving. Apps work on your smartphone, but you see them on the dashboard screen and you hear the sound through the car's speakers. With MirrorLink, readable icons make apps easy to use, so you can control navigation, music and more, as easily as turning on the flashing light. Designed to maximize compatibility between a wide range of cars and smartphones, MirrorLink makes driving easier, safer and more enjoyable. MirrorLink is an industry standard for connecting smartphones in a car. It is already available on many models of cars and smartphones around the world.
